COTTON MARKETS

Weather In Belt Bad, But Market Hesitant Because of Labor Situation.

ket. Liverpool was better than due and the weather news was unfavorable, but after opening 22 points higher to 28 points lower, prices soon sold 2 to 45 points below Saturday's closing flaures. There was active lossi and Wall street liquidation and considerable Southern selling on the decline to 36,50c for January and 35,75c for March.

The early selling movement appeared to have pretty well spent itself on a broak of 15 to 55 points from Saturday's closing figure. Offerings became lighter around 36,60c for January and 35,10c for March, and there were rablies of 30 points or so from the lowest during the middle of the morning The South sold on this buige, however, and the tone was still more or less unsettled around midday.

Prices sold back to nearly the easily low level on the middley decline, but steadled up again during the afternoon on reports that the rainfall had been heavy at some points in Texas. January ruled around 25,34c shortly after 2 o'clock, or about 21 points net lower.

Spot cotton steady, middling, 39,80c. Futures closed barely steady at deciding of 15 to 80 points.

Gose—Open High, Low, Teday, Prev. Monday Afternoon, Nov. 11. Conflict of influences kept the cotton market erratic and within a comparatively harrow range today. Weather conditions in the belt were bad, but the abor situation was discouraging to confidence and there was apparently little disposition to boost values much. Traders were at sea as to what to do and were awaiting developments, although at times trade support was good and prices were full of strength.

The coal miners' strike stuation is a factor that holds out many possibilities, and the culcok his morning was hardly encouraging for an early ending. The stock market was reactionary, indicating the anxiety in that direction, and this was to some measure extended to cotton, where siready there was some sentiment in favor of a setback.

A bullish factor was some very bad weather in the part of the belt where the bulk of the unpicked crop is. Reavy rains fell over part of Texas, and across eastward, attended with some high winds, which did lots of harm to the cotton that is open and aiready in bad shape. The indications were for more rains to the east, but fair and colder in the belt, with possibly some light freezes and frost in the upper western beit. Lots of rain was reported falling during the day and there is no telling yet the extent of damage, although it will probably be chiefly on grade.

Liverpool was not up to expectations, but was comparatively gulet. Finals were irregular and from 13 to 3 points freezes and frost in the upper western beit. Lots of rain was reported falling during the day and there is no telling yet the extent of damage, although it will probably be chiefly on grade.

Liverpool was not up to expectations, but was comparatively gulet. Finals were irregular and from 13 to 3 points freezes and from 13 to 3 points freezes and from 14 points, middling to 25.60d, with sales 10,000 bales, including 5.50d, with sales 10,000 bales, including 6.206 American.

First prices on this side were steady and sightly higher for the near positions and about unchanged for the later one. The rain news was narket erratic and within a compara-

iliquidation sent the price off again, its time to 35.67c, with recovery after time to around the opening level, here seemed to be more attention given later to the spot and weather news, though opinions were rather con-Futures closed 15 to 80 points lower,

ne barely steady.

NEW ORLEANS COTTON.

NEW ORLEANS, Nov. 10.—The cotton futures market opened steady at an advance of seven to 19 points on better Liverpool cables than expected and had weather in the belt. Immediately following the opening the active positions slumped 40 to 52 points, compared with Saturday's close, on account of the seriousness of the coal strike. Private reports of damaging rains in the western belt and the freezing weather in the northwest section ateadled the market. Toward noon pricedwere at net declines of 18 to 25 points. In the absence of favorable coal strike news the market remained depressed in the early afternoon, standing at 1 o'clock at net declines of 20 to 28 points.

Spots closed steady and unchanged; ordinary 28c; good ordinary, 30c; low middling, 35.28c; middling, 40.50c; good middling, 42.25c; Sales on the spot, 2,191; to arrive, 2,852. Futures closed steady at decline of 23 to 61 points. 23 to 61 points.

BOND GLOSE.

NEW YORK. Nov. 18.—Influenced mainly by labor developments over the week-end selling of securities in very large volume was resumed at the opening of today's stock market session. Industrials of the several groups which figured consplcuously in the recent'advance were under especial pressure. Reactions of 3 to almost 10 points accompanied the first 15 minutes of trading in motors and their subsidiaries and steels and allied equipments. Oils and shippings also were heavy and investment rails finally yielded as selling broadened.

The noon reaction forced the general list, notably steels, squipments, motors and oils, under lowest prices of the morning. Shipping, tobacco, chemical and food shares also gave way to the renewed pressure. Pressed steel car was the one conspicuous exception, rising 4 points.

YOUNGSTOWN SCENE OF

YOUNGSTOWN, O., Nov. 10.—Numerous clashes between pickets and deserters from the strikers ranks marked the opening of the eighth week of the steel strike here. Observers estimated 2,000 additional workers returned to the sleel plants today. Several fights ensued when pickets visited homes of mill workers who had announced their intention of returning to work today. According to workers committees representing large numbers of mill menansions to return to work want over the heads of local strike leaders today and took an early train to Pittsburgh to request, permission of national headquarters.

CHICAGO. Nov. 10.—Moderate advances in the price of corn resulted today from wet weather likely to interfere with the crop movement. The market, however, was nervous, owing to the strained industrial situation, as reflected by breaks in the stock market. The opening, which ranged from 4c to 3c higher, with December 31.33 to 31.324 and May \$1.265 to \$1.264, was followed by numerous rapid fluctuations within a narrow range.

Later a decided break in prices for cash grain weakened the future deliveries, but reports of a hilizard in the West railied the market again. The close was unsettled, 4c to 13c net higher, with December \$1.334 to \$1.334, and May \$1.265 to \$1.265.

Oats paralleled the action of corn. After opening unchanged to \$25 to 51.5 and fine prices in the market tended to sag.

Provision trade was slow and at first quotations had a downward slant.

Breaks in the corn market had a depressing effect at times on provisions.—Close—Open. High Low. Today, Prev.
